

Configure Comm100 for Single Sign-On

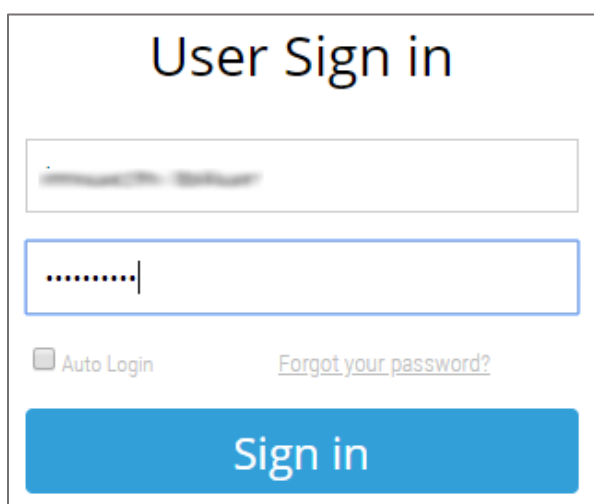

Configuring Comm100 for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Comm100 by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

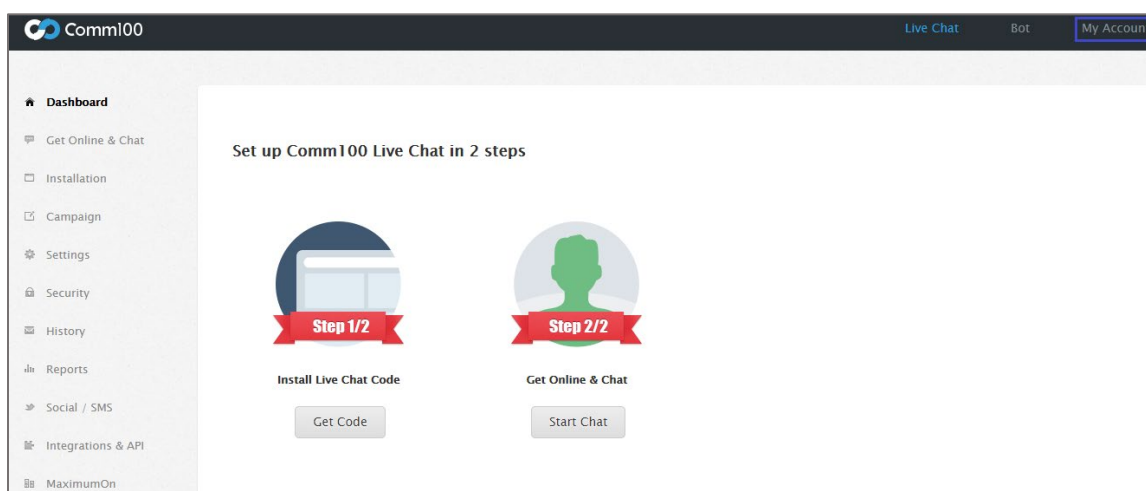

To configure Comm100 for SSO by using SAML:

1. In a browser, type <https://www.comm100.com/secure/login.aspx> and press **Enter**.
2. Type your Comm100 admin account credentials (**Email** and **Password**) and click **Sign in**.

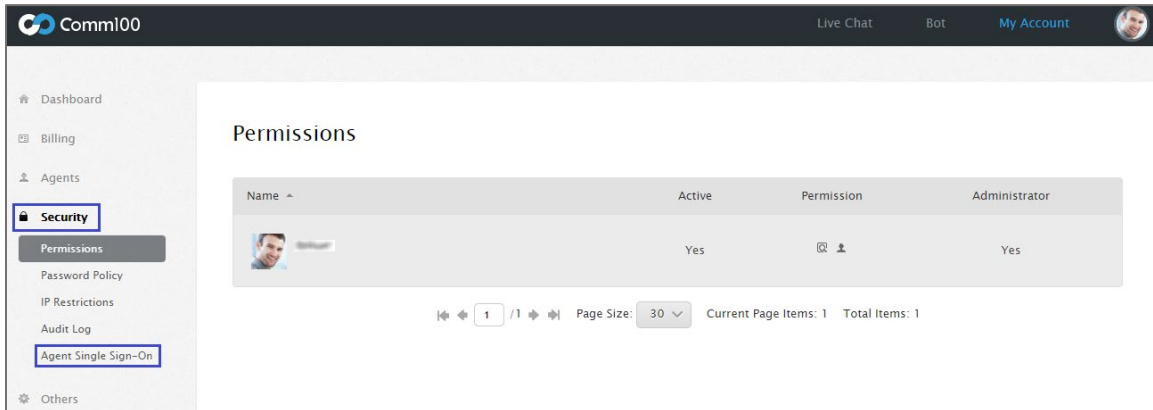

The image shows a 'User Sign in' form. It has a title 'User Sign in' at the top. Below the title is a text input field for the email address. Underneath that is a password input field with a blue border and a cursor. To the left of the password field is an 'Auto Login' checkbox. To the right is a link that says 'Forgot your password?'. At the bottom of the form is a large blue button with the text 'Sign in' in white.

3. In the dashboard page, click **My Account** in the top-right corner.

- Click **Security** > **Agent Single Sign-On** from the left pane.

- In the **Agent Single Sign-On** page, turn on the **Enable** toggle button.
- Enter the values for the following fields:

Required Information	Description
SAML SSO URL	IdP logon URL
Remote Logout URL	IdP logout URL
Certificate	<p>Upload the IdP certificate in PEM or CER format.</p> <p>Note: The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app.</p> <p><a href="https://gateway.cloud.com/idp/saml/<citrixcloudcust_id>/<app_id>/idp_metadata.xml">https://gateway.cloud.com/idp/saml/<citrixcloudcust_id>/<app_id>/idp_metadata.xml</p>

Agent Single Sign-On

Comm100 Agent SSO allows your agents to have a single login across Comm100 and other applications. You only need to log in once and can move swiftly between Comm100 and other applications without the need to log into separate accounts and remember multiple usernames and passwords. Comm100 supports Agent SSO via [SAML \(Security Assertion Markup Language\)](#) or [JWT \(JSON Web Token\)](#).

Enable YES

Once Agent SSO is set up, your agents can log into the Comm100 account with SSO via the following link:
<https://hosted.comm100.com/AdminManage/LoginSSO.aspx?siteId=;>

SAML SSO

Agents use the SSO service via SAML to log into the Comm100 account. [Learn more](#)

SAML SSO URL:

This is the URL that Comm100 will invoke to redirect the agents to your Identity Provider.

Note that our Assertion Consumer Service URL is <https://hosted.comm100.com/AdminWebService/SSO/SSOSAMLConsumer.aspx>

Remote Logout URL:

This is the URL that Comm100 will redirect your agents to after they log out.

Certificate:

You can obtain the certificate from your SAML Identify Provider.

JWT SSO
