

Configure CrowdIn for Single Sign-On

Configuring CrowdIn for single sign-on (SSO) enables administrators to manage users of Citrix Gateway service. Users can securely log on to CrowdIn by using the enterprise credentials.

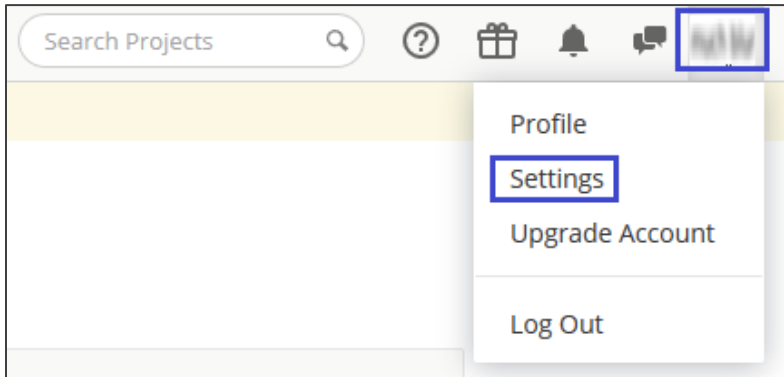

To configure CrowdIn for SSO by using SAML:

1. In a browser, type <https://crowdin.com/login> and press **Enter**.
2. Enter your CrowdIn admin account credentials (**Email or username** and **Password**) and click **LOG IN**.

The screenshot shows the 'Log In to CrowdIn' page. It features a title 'Log In to CrowdIn' at the top. Below the title are two input fields: 'Email or username' and 'Password'. The 'Email or username' field contains a blurred text. The 'Password' field contains a series of black dots. To the right of the 'Password' field is a link labeled 'Forgot password?'. Below the input fields is a checkbox labeled 'Remember Me'. At the bottom of the form is a large green button labeled 'LOG IN'.

3. In the dashboard page, click the user profile icon in the top-right corner and select **Settings**.

4. In the **Account Settings** page, click the **API & SSO** tab.

5. In the Account Settings page, select the **Enable single sign-on** check box and enter the values for the following fields:

Required Information	Description
Provider name	Company Name

A screenshot of the 'Single Sign-On' configuration page. The title 'Single Sign-On' is at the top. Below it is a descriptive paragraph: 'The feature allows you to automate and simplify the registration process for translators. [Read more](#)'. A checkbox labeled 'Enable single sign-on' is checked and highlighted with a blue box. Below the checkbox is a text input field labeled 'Provider name:' containing the text 'citrix12'. To the right of the input field is a 'Save' button. At the bottom of the form, there is a note: 'Use your real company name. Translators will be registered at CrowdIn on behalf this Provider name.'

6. Click **Save**.
