

Configure Declaree for Single Sign-On

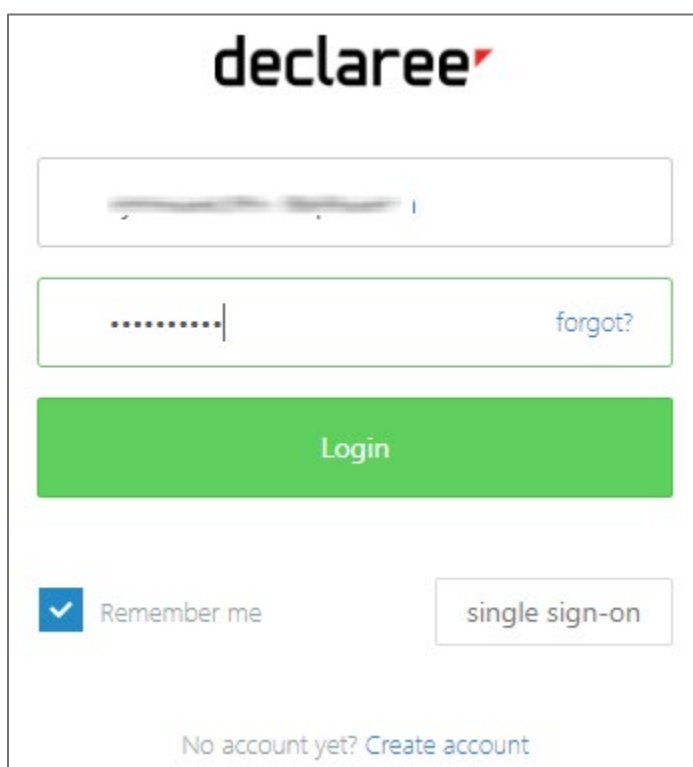

Configuring Declaree for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Declaree by using the enterprise credentials.

Prerequisite

Browser Requirements: Internet Explorer 11 and above

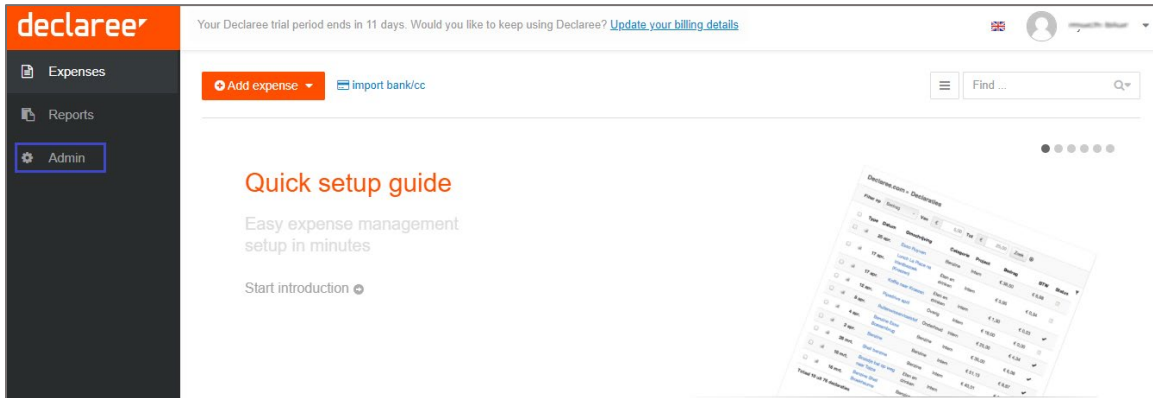

To configure Declaree for SSO by using SAML:

1. In a browser, type <https://app.declaree.com/login> and press **Enter**.
2. Type your Declaree admin account credentials (**E-mail** and **Password**) and click **Login**.

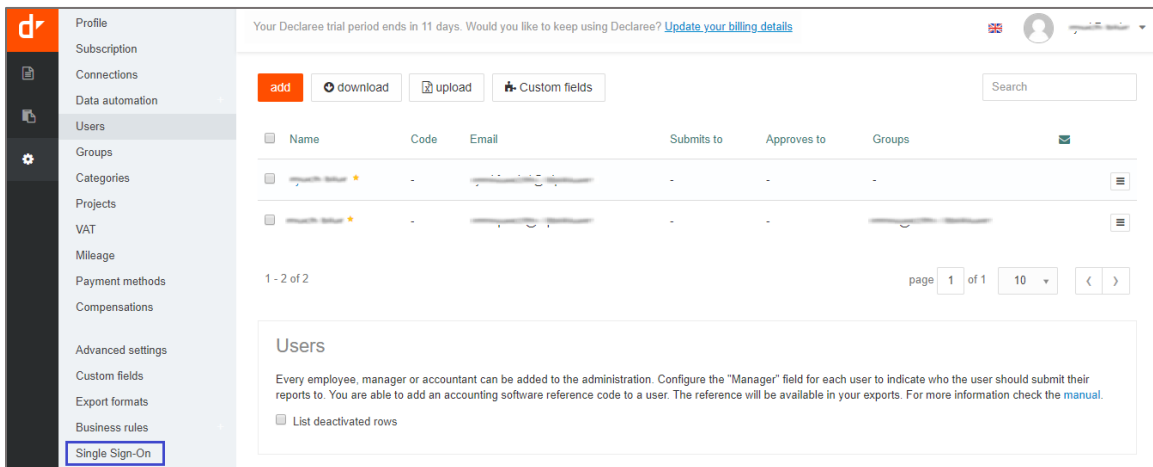

The screenshot shows the Declaree login interface. At the top is the 'declaree' logo. Below it is a text input field for the email address, followed by a password input field with a 'forgot?' link. A prominent green 'Login' button is centered below the password field. At the bottom left, there is a checked 'Remember me' checkbox. To its right is a 'single sign-on' button. At the very bottom, there is a link that says 'No account yet? Create account'.

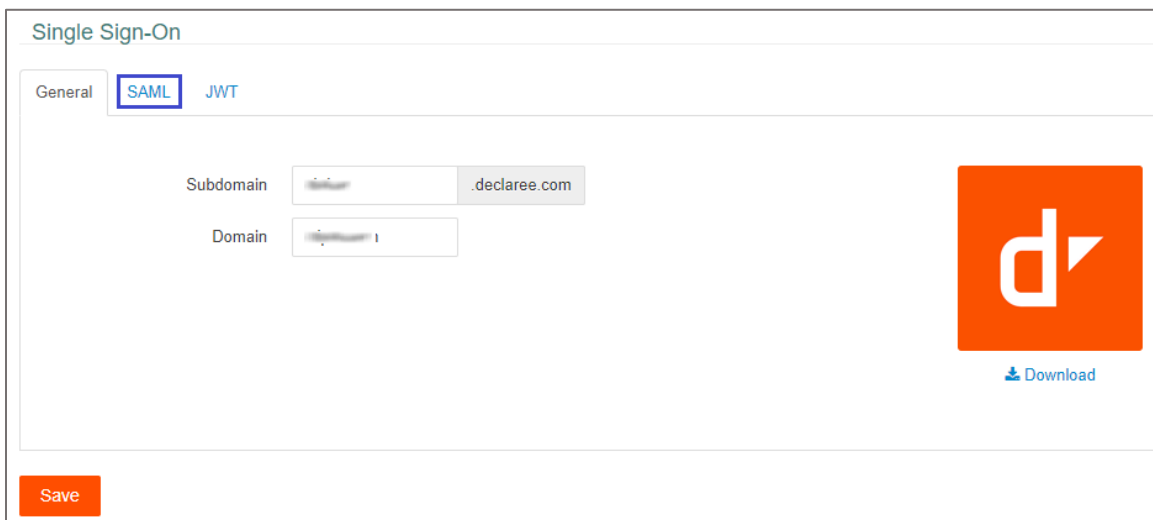

3. In the dashboard page, click **Admin** from the left pane.

4. Click **Single Sign-On** from the left pane.

5. In the **Single Sign-On** page, click the **SAML** tab.

6. Select the **Activate SAML 2.0** check box and enter the values for the following fields:

Required Information	Description
Issuer ID	Entity ID
IdP SSO login URL	IdP logon URL
NameID policy	Select E-mail from the drop-down list.
Signing certificate	<p>Note: The IdP metadata is provided by Citrix and can be accessed from the link below. The link is displayed while configuring SSO settings for your app.</p> <p><a href="https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml">https://gateway.cloud.com/idp/saml/<citrixcloudcust id>/<app id>/idp_metadata.xml</p>

The screenshot shows the SAML configuration page with the following elements:

- Tabs: General, **SAML**, JWT
- Checkbox: **Activate SAML 2.0**
- Federation metadata URL:
- Issuer ID:
- IdP SSO login URL:
- NameID policy:
- Signing certificate: No file chosen
- Base-64 encoded X.509 (.CER)
 -
 -
 -
- Advanced:
- Custom fields:
- Save:

7. Finally, click **Save**.
