

Configure Fusebill for Single Sign-On

Configuring Fusebill for single sign-on (SSO) enables administrators to manage users of Citrix Gateway service. Users can securely log on to Fusebill by using the enterprise credentials.

To configure Fusebill for SSO by using SAML:

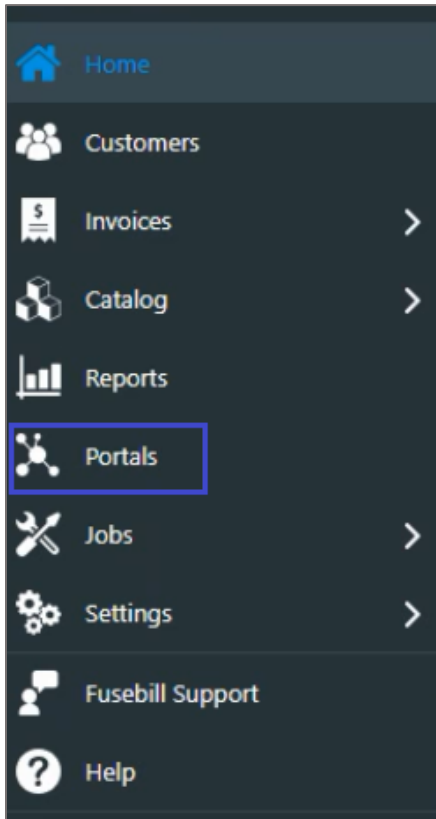

1. In a browser, type <https://admin.fusebill.com/Account/Login> and press **Enter**.
2. Type your Fusebill admin account credentials (**Username** and **Password**) and click **SIGN IN**.

The image shows a login form with a blue background. It contains the following elements:

- A label "Username:" above a white text input field.
- A label "Password:" above a white password input field with black dots.
- A checkbox labeled "Remember me" on the left.
- A link "Forgot Password?" on the right.
- A large orange button with the text "SIGN IN" in white, centered at the bottom.

3. In the left pane, click **Portals**.

4. In the **Single Sign-on** section, select the **On** radio button and enter the values for the following fields:

Required Information	Description
FriendlyName	IdP name
Landing Page URL	IdP logon URL

A configuration form for Single Sign-on. It includes a text input field for 'FriendlyName'. Below it, the 'Single Sign-on' section has two radio buttons: 'Off' and 'On', with 'On' selected and highlighted by a blue box. Underneath, the 'Landing Page URL' section features a dropdown menu set to 'HTTPS://' and a text input field containing 'admin.fusebill.com/'. A 'SAVE' button is located in the bottom right corner.

5. Finally, click **SAVE**.
