

Configuring Proxyclick

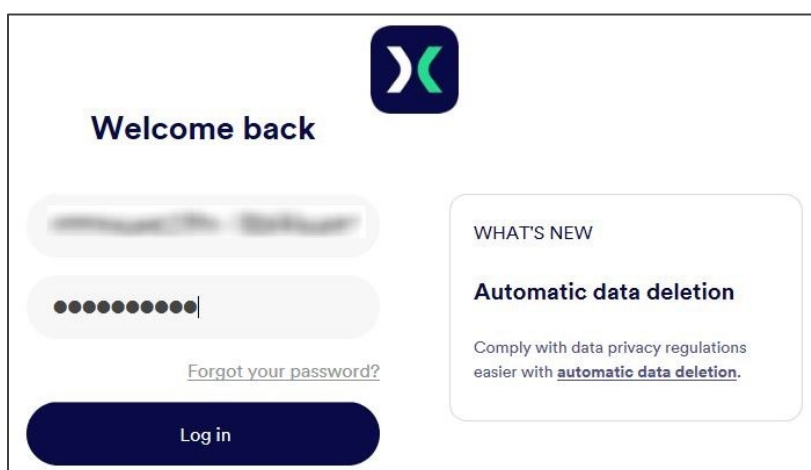

Configuring Proxyclick for single sign-on (SSO) enables administrators to manage users of Citrix ADC. Users can securely log on to Proxyclick by using the enterprise credentials.

Prerequisite

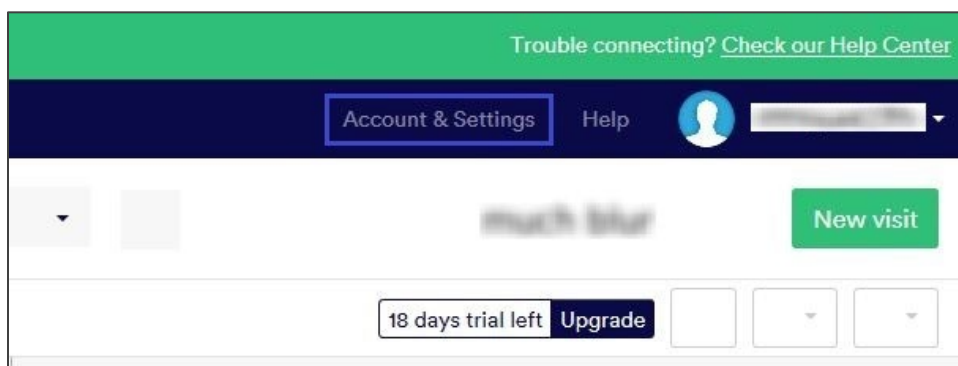

Browser Requirements: Internet Explorer 11 and above

To configure Proxyclick for SSO by using SAML:

1. In a browser, type <https://www.proxyclick.com> and press **Enter**.
2. Type your Proxyclick admin account credentials (**Email** and **Password**) and click **Log in**.

3. On the profile page, click **Account & Settings**.

4. In the left panel, click **Company** under **General Settings**. Provide the relevant details and click **Save Changes**.

This tab is selected by default.

Company Profile

Company Name

Date, time and number format

Logo ON

Upload a new logo

180x100px minimum.
.png, .jpeg, or .gif

Please upload your logo. The file should have a transparent or white background. Please avoid wide margins as they will reduce the size of the logo on the badge

Mailing address

Move the pin if needed so your visitors know exactly where the entrance is

Company phone

Company phone is displayed in invitation email sent to visitors. It is also displayed in the check-in notification sent to the host.

Save Changes

- In the left panel, click **SAML** under **Integrations**.
- In the SAML page, enter the values for the following fields:

Field name	Description
Issuer	Citrix
SAML 2.0 Endpoint URL	Landing page URL
Certificate	Copy and paste the IdP certificate. The IdP certificate must begin and end with -----Begin Certificate----- and -----End Certificate----- Note: The IdP certificate is provided by Citrix and can be accessed from the link below: https://ssb4.mgmt.netScalerGatewayDev.net/idp/saml/templatetest/idp_metadata.xml

- Finally, click **Save Changes**.
